TWO WOMEN BEATEN

They Are Attacked While Asleep in Their Beds By An Assassin.

CAN FIND NO CLEW.

The Assassin Used a Blunt Instrument and Nearly Kills Two Women—
Two Houses Were Entered By Unknown Parties.

Houston, July 4.—A series of shocking crimes that are without a parallel in the annals of Houston were perpetrated by some fiend upon helpless women in the Fifth ward Tuesday night. The police and detectives, who have been on the alert all day, are entirely nonplussed. They are not entirely without any clue as to the identity of the would-be assassin, but are unable to find a motive to prompt such brutal and unprovoked crimes. The only suggestion they offer as to the author of the bloody crimes is that he is some crank, a "Jack the Ripper," bent on murder merely to satisfy an appetite for crime.

One woman and two young ladies were assaulted while asleep in their beds. Two of them were horribly beaten with an ax, receiving injuries that are likely to prove fatal. The third only escaped by discovering the villain before the blow had fallen and by her screams, which brought her father to her bedside.

At 12:30 o'clock Wednesday morning James P. Welsh, city assessor and tax collector, was aroused by the screams of a woman at his front door. Her cries were feeble and he hastened to respond. Upon opening the door he saw a lady standing before him besmeared with blood from head to foot. A stream of it was flowing from her head and her face and hands were covered. "I have been shot," she gasped.

Mr. Welsh's family were at once aroused and the lady was helped to a bed. Mr. Welsh notified the police. The injured woman was Mrs. J. Bartell, residing near Mr. Welsh's home. She was unable to tell how she had received her injuries, but she was under the impression someone had shot her.

Several frightful gashes were visible on her head and blood was flowing freely from the wounds. A hasty message was sent to Dr. Goss, city health officer.

Twelve minutes after Mr. Welsh had telephoned for the police Mounted Officers Lee and James, Night Sergeant Busby and Officer Menard had arrived. They at once went to Mrs. Bartell's home. As they entered her bedroom a shocking spectacle met their eyes. Upon the bed lay a young lady bathed in blood, apparently dead. The bed itself was smeared with the pillows being saturated with blood and there were pools on the carpet, where it had fallen in streams. The girl is the 16-year-old daughter of Mrs. Bartell. She was unconscious. On her head were three wounds, one about five inches in length. On another bed in the room, on which the children were sleeping, was a bloody ax. It was stained and had apparently been left by the murderer. The three children were sleeping in the bed and had not been aroused by the assaults made upon their mother and sister. Dr. Goss hurriedly examined the girl's wounds, pronouncing them very serious.

The entire neighborhood had been aroused by this time, and the officers had arrived. The officers were not long in learning that there had been a disturbance at the home of Mr. Roach in the same neighborhood. An investigation revealed the fact that some one had broken into the house some time before midnight and had made a murderous assault upon Miss Millie Roach.

The young lady was awakened by a sound in her room, and as she opened her eyes, saw a man with an iron rod held in his hands about to strike. She screamed and instantly leaped in the opposite direction. The intruder wheeled around and ran out of the room and into the rear of the house, where he had gained entrance. Mr. Roach attracted by his daughter's screams, entered her room just in time to get a glimpse of the fleeing fiend.

Dr. Goss stated this afternoon that both Mrs. Bartell and her daughter are very seriously injured, but not necessarily fatally. The blows dealt them were done with the thick part of an ax. The edges of the square end of the ax had produced gashes laying the wound open to the skull. There was no fracture of the skull, nor is there any concussion of the brain.

Many angry citizens took part in the hunt for the murderous assailant, and they were not at all backward in expressing their intentions should he be found. The color line would doubtless

not have prevented the dealing out of speedy justice.

The victims of the assault were taken to the St. Joseph's infirmary for treatment. The mystery of the affair is heightened by the evident fact that the assailant did not intend to kill his victims, which he could have done with the ax which he wielded.

Were Fined \$100 Each.

Austin, Tex., July 4.—In the county court P. S. Banner, J. E. Billingsley and Sam Morrow were fined \$100 on a charge of making false election returns.

TEXAS NEWS.

Cotton Begins to Suffer.

Greenville, Tex., July 4.—From reports received from various farmers in different parts of the county it is believed the corn has suffered from the drought to such an extent that if rain should fall within the next two or three days there would be raised only about one-third of a crop. It is estimated that one-fourth of the cotton crop has been cut off by the drought. Gardens are burned up and the fruit crop will be in the same condition in ten days unless rain falls.

En Route Home.

Cleburne, Tex., July 4.—The navy department has received a cablegram stating that the cruiser Newark had arrived at Gibraltar, having sailed 8000 miles from Hongkong since May 25, making the trip in 35 days. From Gibraltar to New York it is 3600 miles and the Newark is expected to arrive on July 15. This news is important to Cleburne, as Captain Newton Hall is on the Newark and is coming home to visit for the first time in four years. He has had a varied experience since he left here, having visited Cuba, Samoa, Philippine Islands, China and Japan.

Almost Suspended Work.

Paris, Tex., July 4.—A farmer living 12 miles south of town said that on the road to the city Wednesday, by actual count, he saw six plows running in the fields. The dry weather has almost entirely suspended farming operations. The farmers are waiting for it to rain before laying by their crops.

Wounds Were Fatal.

Waxahachie, Tex., July 4.—J. J. Wamble, the man who was so badly cut in a difficulty at Forrester Monday night, died. Jim Born has been arrested and is in jail, and a charge of murder made against him. Born claims the cutting was done in self-defense.

No Truth in Report.

Guayaquil, Ecuador, July 4.—The report of a fight between American superintendents and West Indian and other laborers on the railway line here involving numerous fatalities is untrue. Nothing of the kind has happened.

Charged with Pelting Trains.

Waxahachie, Tex., July 4.—Joe Curtis, a negro, was arrested and placed in jail, charged with "rocking trains." He is charged with throwing a large rock through a car window of a Missouri, Kansas and Texas train, and also throwing a rock through a car last Sunday.

Buying in Mexico.

Waco, Tex., July 4.—Agents of the British government are buying horses and mules here and sending them off for shipment to South Africa at a rate that threatens to cause great scarcity of those animals in this section. The buyers here report that over 2000 head were loaded on cars here last month. In consequence of the drain on the local market to meet the British demand orders have been sent to Mexico for horses and mules for farmers.

Collin's School Census.

McKinney, Tex., July 4.—County Superintendent J. H. Hill has just completed his task of tabulating the returns of the school census enumerators with the following result: Total number of whites 9892, colored 378. Independent districts: McKinney, 854, Farmersville 415, Plano 150, Wylie 160. The grand total of pupils in scholastic age in the county is 11,949, or over 200 in excess of last year.

Retains Its Charter.

Wichita Falls, Tex., July 4.—Several weeks ago a petition, signed by the requisite number of citizens, was presented to Judge Skeen, praying that an election be ordered to discontinue the corporation of Wichita Falls. The count shows 173 votes for the corporation and 39 against it.

Show a Healthy Increase.

Corpus Christi, Tex., July 4.—The total business transacted in the Corpus Christi customs district for the fiscal year ending June 30 amounts to \$11,741,528. This is an increase of about \$2,000,000 over last year. The value of exports was \$4,652,619; of imports, \$7,089,909.

Coal Oil Can Exploded.

Palestine, Tex., July 4.—Ruth, the little 11-year-old daughter of Mrs. Benton, was fearfully burned by the explosion of a coal oil can. It is not believed she can live. Her mother was painfully burned about the hands and arms. The little girl is burned all over the body.

Building in San Antonio.

San Antonio, July 4.—During the six months ending July 1, building operations here footed up in value \$312,165.

the number of buildings for which permits were issued being 692. By months the cost of buildings was as follows: January, \$47,745; February, \$51,250; March, \$47,735; April, \$67,475; May \$41,650; June, \$76,310.

Felled With a Plank.

Greenville, Tex., July 4.—In a difficult Saturday night at an ice cream festival in the Scatter Branch community Will Guthrie received a blow on the head with a plank which rendered him unconscious and he had not rallied at last account. There has been no arrest, the officers having failed so far to apprehend the assailant.

Financial Crisis in Germany.

New York, July 4.—The correspondent in London of The Tribune says that great uneasiness prevails in London commercial circles owing to the far-reaching results of German financial crisis, and many British firms having deals with Germany are making inquiries through certain trade protection societies as to the stability of their customers, including those who have been for years on their books.

ALABAMA LYNCHING.

Two Negroes Engage in a Fight With a Farmer and one Swings.

Montgomery, Ala., July 4.—News has just reached here of the lynching of Robert White, a negro, Tuesday morning near Tal'naheesee, Elmore county. Robert White and brother Winston, working on the farm of Mr. Goodwin, engaged in a fight with a farmer named Gardner. The latter killed all the fowls belonging to the Whites Monday night, the two negroes attacked Thompson and fired several shots at him but did no damage. Thompson returned the fire and severely wounded Winston White. Robert White was arrested and while on the way to Wetumpka, mob numbering 25 men took him from the officers and hanged him to a tree. The officers having Winston White in charge succeeded in eluding the mob and placed their prisoner in the county jail.

The Hottest Area.

Kansas City, July 4.—Kansas City Wednesday was the center of the hottest area in the country. Within a radius of 200 miles of the city the temperature ranged from 96 to 103 degrees. In central Kansas hot winds are reported as literally burning up all vegetation. At Leavenworth the highest point recorded in this part of the country for years was reached, the government thermometer in that city marking 108 degrees at 5 o'clock. Other records in Kansas: Hutchinson 105, Fort Scott 104, Lawrence 102, Atchison 100, Arkansas City 98.

In Missouri: Sedalia 104, Kansas City 101, Joplin 100, Springfield 98.

In Kansas City the heat of Wednesday was exceeded by one degree, and five prostrations, none of which will prove fatal, were reported.

Seven Days of Heat.

Boston, July 3.—This city entered upon the seventh day of oppressive heat with the thermometer at 86 at 8 o'clock a.m. Two deaths and two prostrations were reported in the city during the morning. During the six days of excessive heat which have prevailed in New England before today nearly 100 deaths have occurred, which have been attributed to weather conditions. Of this number 14 died in Boston. The number of prostrations in New England will reach several hundred. In Boston there have been nearly 150.

Rain at Pittsburg.

Pittsburg, July 3.—The torrid wave was broken at 9 o'clock this morning by a rain. The mercury dropped from 81 degrees to 77 in a few minutes and indications point to a still further declination, as what promises to be a steady rain has set in. Two deaths were reported up to 9 o'clock. Eighty-six deaths attributable to heat have occurred in Pittsburg since last Wednesday. Of this number 64 have been reported since Sunday night.

Not so Hot.

New York, July 3.—It was not as hot in this city as Tuesday, but the percentage of humidity is greater. At 9 o'clock the weather bureau thermometer showed the temperature to be 85 degrees as compared with 93 at the same time on Tuesday. The percentage of humidity was 72. Tuesday morning it was 59.

The debating society will meet Thursday night July 11. The subject is "Resolved that Columbus deserved more honor for the discovery of America than Washington for defending it," affirmative.

Rain in Cleveland.

Cleveland, July 3.—A gentle rain began falling here and as a result the temperature fell 76 degrees. During the past five days 16 deaths and 60 prostrations from heat have been reported.

Ninety-one in Philadelphia.

Philadelphia, July 3.—The total number of deaths from heat in this city since the beginning of the present hot spell is 91.

Four Prostrations.

Kansas City, July 3.—Four prostrations, one of whom has died, was reported. Weather officials here promise no immediate relief.

William Hedberg, aged 20, committed suicide at Ottawa, Kas., by shooting himself. Ill health was the cause.

Albert L. Johnson of Cleveland, O., brother of Mayor Tom L. Johnson died at Fort Hamilton, a Brooklyn suburb, from heart disease.

STRIKE IN ST. LOUIS.

Railroads Are Tied Up and No Freight Can Be Moved.

St. Louis, July 4.—A total of 1805 freight handlers, drivers and platform clerks employed by the 12 railways in East St. Louis are out as a result of the strike of freight handlers for an advance in wages. Of this number 1155 are freight handlers, the other being 350 drivers and 300 clerks who struck out of sympathy.

Deputy United States marshals have reached there from Springfield, Ills., to guard the property of the Vandala Railroad company, which is in the hands of a receiver.

Several hundred deputy marshals patrol the yards, but no violence has been attempted. Thousand of loaded cars are standing still. Many contain vegetables and perishable goods and should have been sent to their destinations early in the week. Not a wheel is turning in the great railway yards except of switch engines which are "making up" passenger trains.

The doors of all the railway warehouse except those of the Chicago and Alton and Big Four, are closed. The Illinois Central imported 120 carpenters from Cairo to build bridges. Upon their arrival an effort was made to induce them to fill the strikers places, but they refused.

The same road imported two carloads of negroes from Mounds, Ills., but when they learned a strike was on they refused to go to work.

Chief of Police Hauss keeps a reserve force of men constantly at the station to answer any call that may be sent in.

The strike threatens to extend to St. Louis and congest traffic. Local transfer drivers refuse to handle freight that will be trucked and unloaded by the alleged "unfair" labor on the east side.

Only a comparatively few wagons were running in East St. Louis Wednesday and it was reported that many employees of the transfer companies might go out because of the trouble in East St. Louis. Local warehouses are already feeling the effects of the strike on the East side.

Joe Bass and A. F. Morris are here from Pittsburgh, Texas. Mr. Bass, who formerly lived in Bryan, says the Pittsburgh air ship is getting along well towards completion. The builder, Mr. Cannon, has fashioned this ship after a description obtained from Ezekiel and he calls it the Ezekiel air ship. Mr. Bass says it is a model of mechanical skill and fitted up with an aluminum gasoline engine. A trial will be made probably in about thirty days and Mr. Bass says the opinion is general among the people there that the ship will fly. He says the wonderful invention is attracting many people to the town.

Where do You Get Off?

It is a wise thing to know when to get off a train, but prudence would suggest that you get off when the train is standing still, as you would no doubt be worth more to your family by doing so.

Now let us help you to decide where to get off. If you are preparing to take your summer vacation, why not get off at Galveston, La Porte, Seabrook or Port Lavaca. Our trains all stop at Houston and make close connections with G. H. and N. Y. T. & M. railroads for points mentioned, and with the San Antonio and Aransas Pass Railway for Rockport, Corpus Christi and Aransas Pass.

All the hotels at these points are modern in their appointments and you will find the sun bathing, boating and fishing, just what you need in the way of relaxation. Local Agents of the Houston & Texas Central Railroad will be glad to quote you rates, or you should write to

A CIVIL GOVERNMENT

Established In the Philippines By the United States.

TAFT TAKES OATH.

He Addresses the People and Advises Them to Be True to the Flag—Additional Commissioners to Be Appointed Soon.

Manila, July 4.—Civil government departments have been auspiciously inaugurated. Commissioner Taft was escorted by General MacArthur and General Chaffee from the palace to a great temporary building just outside the plaza Placio. Standing on a platform Judge Taft took the oath of office administered by Chief Justice Arellano. Governor Taft was then introduced by General MacArthur, the guns of Fort Santiago being fired by way of a salute.

A feature of the inaugural address of Governor Taft was the announcement that in September, 1901, the commission would be increased by the appointment of three native members, Dr. Ward Detavera, Denito Legarza and Jose Laxuriaga. Before Sept. 1, departments will exist as follows, heads having been arranged for:

Interior—Worcester.

Commercial and police—Wright.

Justice and finance—Ide.

Public instruction—Moses.

Of the 27 provinces organized, Civil Governor Taft said the insurrection still exists in five. This will cause the continuance of the military government in these sections. Sixteen additional provinces are reported without insurrections, but as a necessity they have not been organized. Four provinces are not ready for civil government.

The speaker predicted that with the concentration of troops into larger garrisons it would be necessary for the people to assist the police in the preservation of order. Fleet launches will be procured, he said, which will facilitate communication among the provinces as well as aid the postal and revenue departments.

In connection with educational efforts Civil Governor Taft said that adults should be educated by an observation method. There was a reasonable hope that congress would provide a tariff suitable, one that would assist in the development of the Philippines, instead of an application of the United States tariff.

According to Civil Governor Taft there is an unexpended balance in the insular treasury of \$3,700,000 and an annual income of \$10,000,000.

He said that any possible friction between civil and military subordinates should be discouraged. The patriotism of Filipinos was commended. In conclusion Civil Governor Taft reiterated a hope expressed by the president that in the future the inhabitants would be grateful for the American Philippine victory and that there would be indisputably linked ties between the two peoples.

ORIENTAL NEWS.

Waldersoe's Visit to Japan and an Increase of the Japanese Navy.

Victoria, July 4.—The Express of China brings the following advices from Yokohama:

"Field Marshall Count von Waldersee's visit to Japan was eminently successful. He was accompanied by a suite of several officials and spent more than a week in the country. He had two audiences with his majesty, the emperor and her majesty, the empress, and was made the recipient of handsome gifts by the former. He also paid Yokohama a visit. The trouble in Oueapart does not seem to be entirely quelled yet. The Christians, so called, are now threatening the other natives."

Major General Fukushima, commanding the Japanese troops in China, returned to Japan on June 6.

It is reported that the Japanese government contemplates further increases of the navy in view of Russian activity in the far east, though the question of funds is likely to present some difficulty.

Mr. Sun Yat-sen, the well-known reformer, has returned to Yokohama from Honolulu.

The Nagasaki Press reports that while off the island of Liukungtao, the steamer Zagasago Remarque was fired on several times by a British warship.

A Negro Lynched.

Charlotte, N. C., July 4.—A negro named Jim Bailey was lynched near Smithfield, N. C., for assaulting Maude Strickland, a white girl. Bailey was captured Tuesday night by William Strickland and Charles Powell. They started for Smithfield to deliver their prisoner to Sheriff Ellington. While on the way a mob met them four miles town, took the negro and hanged him to a tree.

Boer Prisoners Contested.

London, July 4.—The report of the governor of the Island of St. Helena dealing with the year ending March 31, says: "The lies in the European papers about the treatment of the Boer prisoners even exasperated the prisoners. The latter enjoy large liberty and are well behaved, contented and anxious to work. Many of them are employed by the farmers and others are employed on the roads and wharves."

MAHOMEDAN QUESTION.

General Bates Says It Will Be Years Before They Are Christianized.

New York, July 4.—"The fact that a million or more Mohammedans have been brought under our flag in the Philippines renders statehood or territorial government for some of the population of the islands an impossibility for many years to come," said General John C. Bates, formerly in command of the department of southern Luzon, in an interview here.

"Believers in the Koran occupy the southern half of Mindanao and the islands to the southward. Their conversion to the Christian faith is considered by many as practically hopeless, although Jesuit missionaries have gone among them undauntedly. They were won to the Mahomedan faith from their native paganism by Mahomedan missionaries who had an outpost in Borneo.

"The relations of the Christians and Mahomedans in Mindanao are not altogether harmonious. According to the original mandate of their prophet the latter were told to kill all unbelievers, unless such a slaughter should interfere with their own advantage. The Jesuits deal with them so diplomatically, however, that outbreaks are infrequent. The Mahomedans will grow weaker and as soon as the zeal of the Christian missionary becomes greater than his tact. The United States has dealt liberally with them however in order to show that it has no partiality to any creed or religion. They are called Moors by the Spanish after their ancient enemies.

"At the same time the Mahomedans welcomed our rule. They said they were glad of the protection of the Americans and that they dreaded conquest from some European or Oriental power which would use them for its own aggrandizement. Many of them practice polygamy. The example of the sultan of the Sulus is already famous.

"If the Philippines, therefore, are to remain a part of the United States we will have to face a new and most serious question to be known as the Mahomedan trouble. However, how it can be solved I cannot say."

Charged With Criminal Assault.

Kearny, Neb., July 4.—Latest details of the suicide of Rev. W. G. Brooker disclose the fact that he was charged with criminal relations with Harriet Longmate, who had been an intimate friend of the Brooker family during their residence at Grand Island. The sheriff from that city arrived in Kearny with a warrant for his arrest on a charge that he was the father of an illegitimate child. Mr. Brooker denied his guilt. When the sheriff stepped out to get a guard for the prisoner, Brooker killed himself. The woman in the case is unmarried and about 30 years of age.

Fight Between Dattos.

Manila, July 4.—An engagement lasting two days has occurred at a point 30 miles east of Zamboanga island of Mindanao east of Zamboanga island of Mindanao between Datto Tjim and his followers and the followers of Datto Sobym. Datto Tjim is a vassal of the sultan of Mindanao. The losses on both sides were heavy and the result of the engagement indecisive. The sultan of Mindanao professes ignorance as to the cause of the outbreak between the two dattos. The sultan is friendly to the Americans.

Tax on Coffee Reduced.

Washington, July 4.—Minister Merry has reported to the state department that the Costa Rican government will reduce its export tax on coffee in order to offset the additional duty of 50 per cent recently imposed on all imports into the country. The reduction amounts to an abolition of the export duty of one cent per pound on coffee. The tax goes into effect Sept. 1 next.

Time Fixed.

Little Rock, July 4.—Acting Governor Huddleston has fixed July 26 for the hanging of Charles Anderson, a negro, convicted of rape upon a white woman last fall. The execution will be in Little Rock and will be conducted under the new law requiring convicted rapists to be hanged in public.

Train Held Up.

St. Paul, July 4.—According to advice to Chief of Police O'Connor, train No. 4 on the Great Northern was held up near Wagner, Mont., about 1 o'clock Wednesday afternoon by a gang of outlaws. The Great Northern express safe was blown open and \$40,000 is said to have been secured by the robbers.

Bryan Greeted.

Knoxville, July 4.—Hon. W. J. Bryan was greeted at the depot in Knoxville by several hundred people who insisted upon a speech. He briefly stated that he was still on the Kansas City platform and that he was good for 20 years in behalf of Democracy. He was given cordial applause.

Bail Reduced.

New York, July 4.—David L. Short and Morris Meyers, who are in the Tombs under indictment for forgery and perjury in connection with Albert T. Patrick, charged with the murder of William M. Rice have succeeded in having their bail reduced from \$25,000 each to \$7,500 each.

Run Over by a Streetcar.

Shreveport, La., July 4.—While crossing Texas Avenue on horseback J. P. Chrisman, an architect and builder, was struck by a belt line car on the head. He fell under the car and the wheels passed over him and cut off one leg. He was taken to the Charity hospital, where he lies unconscious with no hope of recovery.

Mrs. Ann Carvill Walker died Tuesday at Helena, Ark., after a long illness.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.
